Understand the  
road ahead

# LET'S DO THIS TOGETHER

Meet your SureClick<sup>®</sup> Autoinjector

Please see the Important Safety Information, including BOXED WARNING,  
for ENBREL on page 8.

Please click here for [Important Safety Information](#), [Prescribing Information](#), and [Medication Guide](#).

# LET'S GET STARTED

You and your doctor have chosen the SureClick® Autoinjector and reviewed the Instructions for Use, and your doctor has trained you on the device. Remember to ask your doctor if you have any questions.

Now it's time to get more familiar with the SureClick® Autoinjector and the different kinds of support available to you.

First, check out a short demonstration video

If you need additional support, all you have to do is call

Finally, we want to help you understand the road ahead

# SEE HOW IT IS DONE

Now that you have these important tools to practice, let's give it a try.  
We made a video to help you get the hang of this.

Watch this quick video to supplement the information you got from your doctor on how to use your SureClick® Autoinjector.  
This video does not replace the Instructions for Use. Please consult the Instructions for Use when using the SureClick® Autoinjector. These instructions cover everything you need to know about how to use ENBREL.

# WANT TO TALK?

It's okay if you still have questions. We want to make this as easy as possible for you. So let us help you with financial support information, setting up your routine, or even getting you supplemental injection support.

# ENBREL PATIENT Roadmap

This roadmap is for use after you and your doctor have chosen ENBREL.

## 1 Getting Started with ENBREL

- ☐ Complete the labs ordered by your doctor
- ☐ Ask your doctor what you could expect ENBREL to do for you and when you should start to see results
- ☐ Complete in-office injection training. You can also go to [EnbrelSupport.com](http://EnbrelSupport.com) to learn more about taking ENBREL
- ☐ Create a care team list (eg, your doctor, the specialty pharmacy that supplies your ENBREL)

## 2 Addressing Your Financial Support

- ☐ Call **ENBREL Support®** at **1-888-4ENBREL** or go to [EnbrelSupport.com](http://EnbrelSupport.com) to learn about financial support options
- ☐ Commercially insured? Ask **ENBREL Support®** how the Co-Pay Card\* may be able to help lower your out-of-pocket prescription costs. Go to [EnbrelSupport.com](http://EnbrelSupport.com) to learn more about the Co-Pay Card
- ☐ Medicare, Medicaid, or no insurance? Call 1-888-4ENBREL to speak to an **ENBREL Support®** specialist

## 3 Understanding How to Get ENBREL

- ☐ If you have an ENBREL Co-Pay Card, tell your specialty pharmacy when they call
- ☐ Schedule your ENBREL delivery for when you are home, and store your ENBREL in the refrigerator when it arrives

## 4 Establishing Your Treatment Routine

- ☐ Set up injection reminders on your calendar
- ☐ Set up refill reminders on your calendar
- ☐ Decide how you will monitor and track your results to share with your doctor at your next visit

## 5 Injecting on Your Own

- ☐ Read and follow the instructions for use to complete your injection. For supplemental injection support go to [EnbrelSupport.com](http://EnbrelSupport.com) or call **1-888-4ENBREL**
- ☐ Dispose of materials properly
- ☐ Confirm your next injection date

## 6 Evaluate Your ENBREL Treatment

- ☐ Track your results and share them with your doctor

### MUST-DO'S

### NOTES

### Behind the Scenes

Specialty pharmacy is notified of your prescription by your doctor and they work with your insurance provider to confirm coverage and prescription costs

If eligible, your ENBREL® Co-Pay Card\* is shipped to you by **ENBREL Support®**. Assume 3-4 days for your card to arrive.

If you have a Co-Pay Card\*, your benefit is applied automatically. ENBREL is shipped to you by your specialty pharmacy.

### Helpful Tips

To sign up for **ENBREL Support®** call **1-888-4ENBREL** (1-888-436-2735) or visit [EnbrelSupport.com](http://EnbrelSupport.com).

Bring ENBREL resources with you wherever you go by downloading the free **Embark®** app, designed to support your ENBREL experience.

Please click here for [Prescribing Information](#) and [Medication Guide](#).

\*Terms, conditions, and program maximums apply. This program is not open to patients receiving prescription reimbursement under any federal, state, or government-funded healthcare program. Void where prohibited by law.

**Prescription Enbrel® (etanercept) is taken (given) by injection.**

### IMPORTANT SAFETY INFORMATION

#### What is the most important information I should know about ENBREL?

ENBREL is a medicine that affects your immune system. ENBREL can lower the ability of your immune system to fight infections. Serious infections have happened in patients taking ENBREL. These infections include tuberculosis (TB) and infections caused by viruses, fungi, or bacteria that have spread throughout the body. Some patients have died from these infections. Your healthcare provider should test you for TB before you take ENBREL and monitor you closely for TB before, during, and after ENBREL treatment, even if you have tested negative for TB.

There have been some cases of unusual cancers, some resulting in death, reported in children and teenage patients who started using tumor necrosis factor (TNF) blockers before 18 years of age. Also, for children, teenagers, and adults taking TNF blockers, including ENBREL, the chances of getting lymphoma or other cancers may increase. Patients with RA may be more likely to get lymphoma.

#### Before starting ENBREL, tell your healthcare provider if you:

- Have any existing medical conditions
- Are taking any medicines, including herbals
- Think you have, are being treated for, have signs of, or are prone to infection. You should not start taking ENBREL if you have any kind of infection, unless your healthcare provider says it is okay
- Have any open cuts or sores
- Have diabetes, HIV, or a weak immune system
- Have TB or have been in close contact with someone who has had TB
- Were born in, lived in, or traveled to countries where there is more risk for getting TB. Ask your healthcare provider if you are not sure
- Live, have lived in, or traveled to certain parts of the country (such as, the Ohio and Mississippi River valleys, or the Southwest) where there is a greater risk for certain kinds of fungal infections, such as histoplasmosis. These infections may develop or become more severe if you take ENBREL. If you don't know if these infections are common in the areas you've been to, ask your healthcare provider
- Have or have had hepatitis B
- Have or have had heart failure
- Develop symptoms such as persistent fever, bruising, bleeding, or paleness while taking ENBREL
- Use the medicine Kineret (anakinra), Orencia (abatacept), or Cytoxan (cyclophosphamide)
- Are taking anti-diabetic medicines
- Have, have had, or develop a serious nervous disorder, seizures, any numbness or tingling, or a disease that affects your nervous system such as multiple sclerosis or Guillain-Barré syndrome
- Are scheduled to have surgery
- Have recently received or are scheduled for any vaccines. All vaccines should be brought up-to-date before starting ENBREL. Patients taking ENBREL should not receive live vaccines.
- Are allergic to rubber or latex
- Are pregnant, planning to become pregnant, or breastfeeding
- Have been around someone with chicken pox

#### What are the possible side effects of ENBREL?

ENBREL can cause serious side effects including: **New infections** or worsening of infections you already have; **hepatitis B** can become active if you already have had it; **nervous system problems**,

such as multiple sclerosis, seizures, or inflammation of the nerves of the eyes; **blood problems** (some fatal); new or worsening **heart failure**; new or worsening **psoriasis**; **allergic reactions**; **autoimmune reactions**, including a lupus-like syndrome and autoimmune hepatitis.

**Common side effects include:** Injection site reactions and upper respiratory infections (sinus infections).

In general, side effects in children were similar in frequency and type as those seen in adult patients. The types of infections reported were generally mild and similar to those usually seen in children.

These are not all the side effects with ENBREL. Tell your healthcare provider about any side effect that bothers you or does not go away.

If you have any questions about this information, be sure to discuss them with your healthcare provider. You are encouraged to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch), or call 1-800-FDA-1088.

Please click here for [Prescribing Information](#) and [Medication Guide](#).

### INDICATIONS

#### Moderate to Severe Rheumatoid Arthritis (RA)

ENBREL is indicated for reducing signs and symptoms, keeping joint damage from getting worse, and improving physical function in patients with moderately to severely active rheumatoid arthritis. ENBREL can be taken with methotrexate or used alone.

#### Psoriatic Arthritis

ENBREL is indicated for reducing signs and symptoms, keeping joint damage from getting worse, and improving physical function in patients with psoriatic arthritis. ENBREL can be used with or without methotrexate.

#### Moderate to Severe Plaque Psoriasis

ENBREL is indicated for chronic moderate to severe plaque psoriasis (PsO) in children 4 years and older and adults who may benefit from taking injections or pills (systemic therapy) or phototherapy (ultraviolet light).

#### Ankylosing Spondylitis (AS)

ENBREL is indicated for reducing signs and symptoms in patients with active ankylosing spondylitis.

#### Moderately to Severely Active Polyarticular Juvenile Idiopathic Arthritis (JIA)

ENBREL is indicated for reducing signs and symptoms of moderately to severely active polyarticular juvenile idiopathic arthritis (JIA) in children ages 2 years and older.
